Overview of the Data Set

This dataset contains information about the executive speeches of Hungarian Prime Minister. The dataset contains two sub-datasets. Parliamentary Speeches of Prime Minister (2010-2014) collect each parliamentary speech of Hungarian Prime Minister at parliamentary debate days between 2010 and 2014. Non-Parliamentary Speeches of Prime Minister dataset contains information about each speech of Hungarian Prime Minister held outside the building of Hungarian Parliament.

Content Coding

We have coded each entry by policy content, along with other variables of interest. We employed the standard Policy Agendas Project topic scheme in our policy content coding, and each entry was assigned one and only one content code. This allows researchers to trace activity on a particular topic across the period. The full description of our content categories may be found in the major topics codebook at <http://cap.tk.mta.hu/en/codebooks>.

This Codebook is a modified version of the pertaining U.S. Policy Agendas codebook. We acknowledge the rights of the original publishers and express our gratitude for the permission to use their version as a starting point.

Variable Names and Descriptions

id

This variable records the unique identifier for each observation. It has no substantive application. Format: id_root + number of the act in the given electoral cycle. *Example: T1990C0009 for the 9th act in the electoral cycle started in 1990.*

year

The year of the speech.

prime minister

Name of the Prime Minister.

number_sentence

Number of the sentence of the speech.

number_characters

Number of the characters in each coded sentence.

content_sentence

This column contains each sentence of the executive speeches

majortopic

This column records the Policy Agendas Project's major topic code that corresponds to the information found in the Description column. The codes and examples for this column are found in the Policy Agendas Hungary Policy Codes Codebook.

policy content

This column contains information about the policy content of each sentence (If the sentence contains policy content: 1; If there is no policy content in the sentence: 0).

type (parliamentary speeches)

This column records the type (eg. felszólalás) of the speech.

complete title

This column records the complete title (eg. Orbán Viktor beszéde a LuK Savaria új gyártócsarnokának átadásán, Szombathelyen) of the speeches.

number (parliamentary speeches)

Number of the speech at the debate day.

debate day (parliamentary speeches)

Number of the debate day of the year.

electoral cycle

The starting and ending year of the electoral cycle in which the speech was held (eg. 2010-2014).

date

The date when the speech was held.

city (non-parliamentary speeches)

The city where the speech was held.
